Subject: PARLIAMENTARY INQUIRY INTO THE 2022 GENERAL ELECTION IN KOMPIAM AMBUM DISTRICT IN ENGA PROVINCE

To: &lt;election22committee.parliament@gmail.com&gt;

Dear Hon. Allan Bird, Good Governor of East Sepik and the Chairman Of The Special Parliamentary Committee On 2022 General Election.

I am Peter Wanza 35 years old from Kompiam Ambum District in Enga Province. I would like to express what I have seen and witness everything during the conduct of the General Election in my District.

1. The powers, functions and responsibilities of the Electoral Commission were hijacked and didn't work well the way we think. This is not known to us for the last 25 years of Sir Pundari's leadership in Kompiam Ambum District. He always appoints his own Returning Officer (RO), ARO, presiding officers and Elections officials in every election for the last 25 years of his term as a MP for Kompiam Ambum. All appointments were done in Port Moresby and always surprises his people and the Candidates during election times. Always bribery and controlling the Electoral Commission through bribery for the last 25 years. 2022 General Election in Kompiam Ambum went the same way.

2. Common Roll Updates are all good but few missed out in all five LLGs, campaign ran well and fine but Sir Pundari uses people's DSIP money to buy votes for the people in Kompiam Ambum. His own House was given name tag ATM because in every election during campaign period Sir Pundari invites voters and gives them money. 2022 Election was the same.

3. Counting should be counted at Wabag, Enga's Headquarter but he then moved it to Jiwaka. Big foul play in the counting rooms. Many Presiding Officers were bribed. Some presiding officers were not in the counting room and yet Returning Officer asked Sir Pundari's tribesmen to do the counting. The Declaration was null and void. Didn't follow the Election process and the matter was already registered in the leadership tribunal and it is before the court.

This ignites the big fight in Kompiam Ambum where many people are killed and millions of properties destroyed. Fight is still continuing and Sir Pundari isn't saying anything to solve the problem. Kompiam Ambum is in chaos.

4. Police and Defence were biased and didn't carry out their mandated duty. Many got bribery and didn't respect the constitutional rights of our citizen.

All are pure truth about what had happened during 2022 General Election in my District Kompiam Ambum in Enga Province.
